

ITECC

INTEGRATED TECHNOLOGIES ENGINEERING CONTRACTING COMPANY

2026

ABOUT US

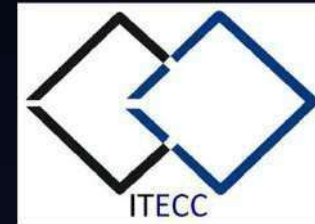

Integrated Technologies Engineering Contracting Company (ITECC) is a forward-thinking engineering powerhouse delivering **Technology, Electrical solutions, telecommunications turnkey projects, and large-scale construction services** across the Kingdom of Saudi Arabia. Driven by the Kingdom's **Vision 2030**, we are committed to supporting the nation's rapid development through advanced infrastructure, sustainable technologies, and world-class project execution.

Trusted by leading **government agencies, telecom operators, and energy providers** across Saudi Arabia.

Delivering **mega-projects** with proven reliability and excellence.
Building **long-term partnerships** through quality, transparency, and innovation.
Supporting the Kingdom's **Vision 2030** with advanced engineering solutions.

OUR MISSION

Mission to power the Kingdom's growth Vision 2030

Integrated Technologies Engineering Contracting Company (ITECC) is a leading Saudi-based engineering and contracting firm delivering **electrical solutions, telecommunications turnkey projects, and large-scale construction services.**

With a mission to power the Kingdom's growth and support **Vision 2030**, we provide innovative, high-performance solutions that transform ideas into reality.

OBJECTIVE

OUR VISION

To be the foremost engineering and contracting company in Saudi Arabia, setting new benchmarks in Technology, Telecom, Electrical, and construction excellence.

We aspire to lead the transformation toward a more connected, efficient, and sustainable future, powered by innovation, advanced technology, and a commitment to quality.

Through continuous growth and strategic partnerships, Integrated Technologies Engineering Contracting Company aims to play a vital role in building the Kingdom's modern infrastructure and contributing to Vision 2030.

GOALS

WHO WE ARE

Integrated Technologies Engineering Contracting Company (ITECC) is a dynamic and trusted organization specializing in Tech, telecom, electrical, and construction contracting across Saudi Arabia. With a strong foundation built on innovation, precision, and integrity, we are dedicated to delivering worldclass infrastructure solutions that shape the future of connectivity and development.

OUR TEAM of experienced engineers, consultants, and project managers works together with a shared goal—to provide reliable, safe, and sustainable solutions that exceed client expectations. By embracing cutting-edge technologies and maintaining strict quality standards, we ensure every project reflects our commitment to excellence and long-term value.

WHO WE ARE

HOW WE WORK

At Integrated Technologies Engineering Contracting Company (ITECC), our work approach is defined by precision, collaboration, and commitment. We follow a structured process that ensures efficiency, quality, and client satisfaction at every stage of a project.

Planning & Design – We begin with a deep understanding of our client’s needs, conducting detailed assessments and developing customized designs that align with technical and regulatory standards.

Execution & Implementation – Our skilled engineers and technicians execute projects using advanced tools, technologies, and methodologies—ensuring timely and accurate delivery.

Quality & Safety Assurance – Every project is monitored under strict quality control and safety guidelines to guarantee durability, reliability, and compliance.

Support & Maintenance – We provide continuous post-project support and maintenance to ensure long-term performance and client satisfaction.

STRATEGY

WHAT SETS US APART

At Integrated Technologies Engineering Contracting Company (ITECC), what truly distinguishes us is our unwavering commitment to quality, innovation, and client success. We pride ourselves on delivering solutions that go beyond expectations, ensuring every project—whether in telecom, electrical, or construction—is executed with precision and reliability.

DEFINES US

WHAT DEFINES US

At Integrated Technologies Engineering Contracting Company (ITECC), what truly distinguishes us is our unwavering commitment to quality, innovation, and client success.

We pride ourselves on delivering solutions that go beyond expectations, ensuring every project—whether in telecom, electrical, or construction—is executed with precision and reliability.

COMPETITIVE

SERVICES ELECTRICAL SOLUTION

At Integrated Technologies Engineering Contracting Company (ITECC), our Electrical Services Team is dedicated to delivering reliable, efficient, and safe electrical solutions across Saudi Arabia. The team consists of highly skilled engineers, technicians, and project specialists who ensure excellence in every project.

OUR KEY SERVICES INCLUDE:

- Power Systems & Distribution Networks – Design, installation, and maintenance of efficient electrical systems.
- Lighting Solutions – Comprehensive indoor and outdoor lighting design and implementation.
- Electrical Infrastructure Projects – End-to-end project execution with a focus on quality and compliance.
- Upgrades & Rehabilitation – Modernizing existing electrical systems for safety and efficiency.
- Maintenance & Support – Ongoing monitoring, preventive maintenance, and rapid troubleshooting.

ELECTRICAL SOLUTIONS

SERVICES

TELECOMMUNICATION SOLUTIONS

At Integrated Technologies Engineering Contracting Company (ITECC), our Telecom Services Team specializes in delivering cutting-edge and reliable telecommunications solutions across Saudi Arabia. Comprised of experienced engineers, field technicians, and project managers, the team ensures seamless implementation of telecom networks that meet today's dynamic connectivity needs.

Our Key Services Include:

EM Equipment's Replacement

GSM Network Implementation & Rehabilitation – Upgrades, expansions, & optimization of mobile networks.

FTTH (Fiber to the Home) & OSP Networks – Design, installation, and maintenance of high-speed fiber optic networks.

Wireless & Wired Connectivity Solutions – Comprehensive solutions for urban, rural, and industrial setups.

Network Testing & Commissioning – Ensuring performance, reliability, and compliance with industry standards.

SERVICES

WATER AND SANITATION SOLUTION

At Integrated Technologies Engineering Contracting Company (ITECC), our Water and sanitation Solutions Team is focused on delivering innovative, efficient, and reliable network and civil utility solutions across Saudi Arabia. Our experts, including engineers, technicians, and project managers, ensure seamless planning, implementation, and maintenance of NWC projects with precision and compliance.

OUR KEY SERVICES INCLUDE:

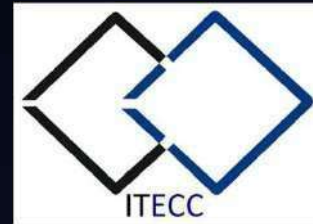

Network Design & Implementation – Planning and deployment of robust communication and utility networks.

Water & Sewage Infrastructure – Design, installation, and maintenance of sustainable water systems.

Pipeline Installation & Rehabilitation – Modernizing and maintaining pipelines for efficiency and safety.

Testing & Commissioning – Ensuring all systems operate reliably and meet quality standards.

Support & Maintenance – Continuous monitoring, preventive maintenance, and rapid troubleshooting.

WATER TREATMENT SOLUTIONS

SERVICES CONSTRUCTION SOLUTION

At Integrated Technologies Engineering Contracting Company (ITECC), our Construction Solutions Team is dedicated to delivering high-quality, reliable, and innovative construction services across Saudi Arabia. Our team of skilled engineers, project managers, and site specialists ensures that every project—whether civil, structural, or infrastructure—is executed with precision, safety, and efficiency.

OUR KEY SERVICES INCLUDE:

Civil & Structural Construction – Comprehensive planning, design, and execution of buildings, facilities, and infrastructure.

Project Management & Supervision – Ensuring timely delivery, cost control, and strict adherence to quality standards.

Infrastructure Development – Roads, utility networks, and site development solutions tailored to client requirements.

Upgrades & Renovation Projects – Modernizing existing structures to meet current standards and improve functionality,

AV SOLUTIONS

ITECC founded as an organized provider for AV Solutions & Technology solutions provider. Technology integrator, with a solid Presence in Saudi Arabia.

OUR SERVICES & WIDE RANGE OF WORLD CLASS BRANDS, INCLUDED BUT NOT LIMITED TO:
Audio Video Solutions, Screen projectors and Interactions, LED Screens (Video Walls, AIO, Digital Signage), Workspace Solutions, Fit-out Services, Network Infrastructure Solutions & Services, Data Centers Solutions, Surveillance & Security Solutions, IPTV Solutions, Public Address Systems, Fire Alarm Systems, etc.

The ITECC team is equipped with extensive product and systems integration knowledge, broad experience and an enduring commitment to quality to assist you in determining your exact requirements. We are available to consult, design and install a system to suit anything and any requirements.

So; whether you need expert advice, professional installation support or merely reliable service – ITECC has the right solutions for your technology requirements.
Our key engineers have a broad knowledge in all aspects and disciplines of project management, providing high quality solutions that are in line with the latest technology.

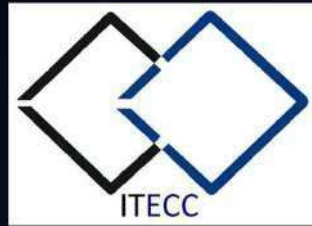

We coordinate the professional services of our allied specialist practices to formulate the most appropriate team for any size project. This represents the most cost and technically effective method for the provision of consulting services Without large Practice overheads whilst maintaining a single point of contact to our clients.
It's about providing you with the **BEST POSSIBLE**.

AV SOLUTIONS

OUR GOALS

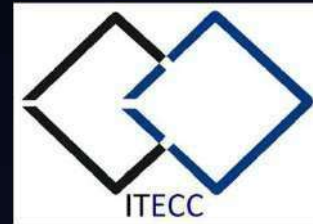

- To provide a practical and lateral approach to the development of solutions to meet the needs of our clients.
- To design systems, which are “fit” for the intended “purpose”, which are both efficient and cost effective.
- To provide documentation, which will both be suitable for the client's needs and also reduce the risk for our clients and tendering contractors alike, thereby minimizing project cost.
- To inform our clients of options, life cycle costing and cost benefit of systems as well as other benefits of a non-financial nature.
- To promote the use of new technology and the use of energy efficient systems to reduce recurrent expenditure and minimize the use of our natural resources.
- To retain our clients in future years by making their businesses operate more profitably through system solutions.
- To build our reputation by providing the most appropriate solution.

SOLUTIONS

OUR SOLUTIONS

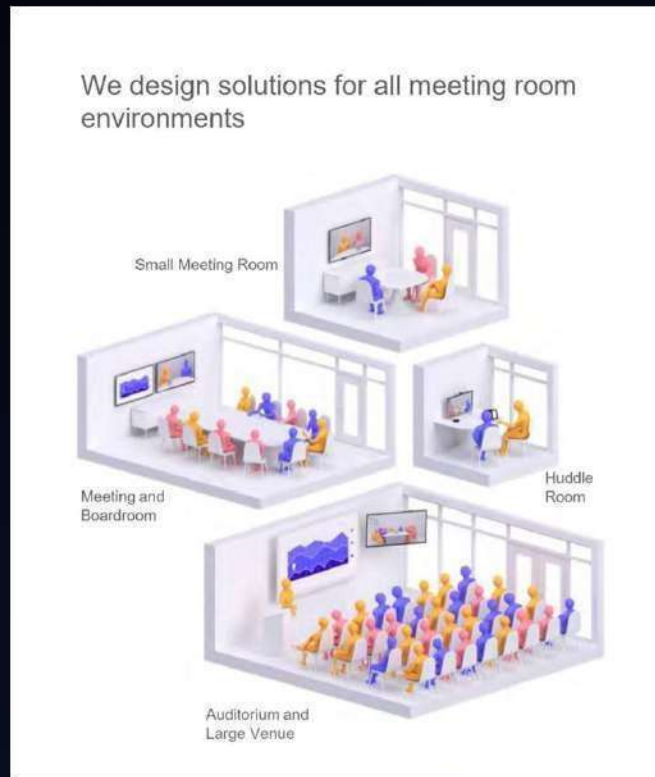

- Professional Audio & Video Systems
- Audio-Video Conference Systems
- Sound Systems and Sound Masking
- IT Passive and Active Components, supply and Installation
- Evacuation and PA System
- Surveillance and Traffic Solution
- Display Solution ,Video walls , LED Screens
- Office Automation
- PABX - Private Automatic Branch Exchange
- 1st and 2nd fix Projects
- Control Systems
- File, Visitor and warehousing Tracking Solutions
- Media Access & Interconnections
- Data System & Networking
- Fire Alarm
- Workspace Solutions
- Fit-out Services
- Network Infrastructure Solutions & Services
- Data Centers Solutions

SOLUTIONS

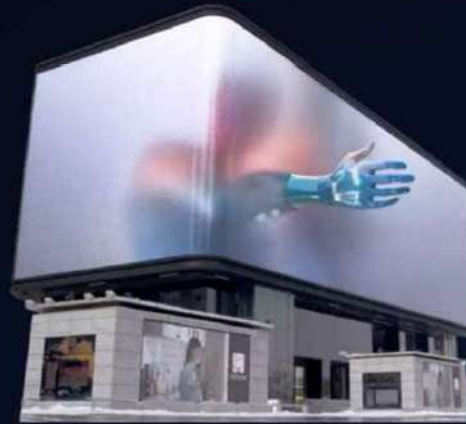

DESIGNING

ITECC commitment is based on applying creative knowledge and technical experience in design, to achieve the very best possible results for every part of our service. The application Site always has its special needs, where required to fill it with intelligence sound wave through unique design.
